- ◆ 评分

#### 评分: 67.4

评语: 全文结构较为严谨, 再增加词汇量积累就更好了, 高级词汇使 用不是很多,建议增加衔接词汇的积累,注意不要过多使用简单句。 Do not be upset ,you will be better next time . None of the four tutors supported you maybe because of you are not the person they selected On the other h

[语法错误]: because后面跟句子不需要加of。

As the old saying goes, railure is the mother of success so you should not lose your heart . You should cheer up and keep in mind, I am the best. You can practice more in your spare time. If I have time, I can help you practice with it. I am sure that you will make great progress when you practice harder

"机器学习落地"==>"机器学习(中的深度学习)落地"

#### What is your solution?

None of the face tenture supported you maybe recome of you are to the person tary relacted on the other hand gen maybe out fregare more.

As the and soming goes lailed in the moder of success.

So you shouldn't lose your heart You should there up and heap in mind. I'm the best You can pretice more in you space have if I have time. I can help you proctice noth it.

I am sure that you will make great progress when you practice hards to you proctice has the your proctice.

Went of the pour tainer supported you regit for must be from they related Un the other house you must be from they related Un the other house you must be from they related Un the other house you must be from the first the from the from the first they will make great progress then you practice from the from the first they will make great progress then you practice from the from the first they will make great progress then you practice from the from the first they will make great progress then you practice from the from the first they will make great progress then you

Don't be upset, you will be better next time.
